DAILY SENTINEL

MILWAUKEE: Wednesday Morning, April 15.

Hallrond Excursion. A special train starts from our city, this morning, with the Officers and Directors of the Milwankee & Mississippi R. R., and a few invited guests, to go through to Prairie du Chien, the Western terminus of our Pioneer road. The train is to start at 7 o'clock A. M., and its departure will be honored with a salute of 100 guns. It is expected that the special train will reach Madison at 11: 80 A. M., and the Mississippi at 5 P. M. Regular trains, for passengers and freight, will commence their trips to-morrow.

The Bred Scott Care. We linvite attention to the report of the Joint Legislative Committee of the State of New York, agon the principles involved in the infamous Dred Scott decision, and the action which it behaves the Free States of the Union to take in regard thereto. The high standing of the gentlemen composing the Committee; the position and just influence of the Empire State throughout the confederacy; and the importance of the questions discussed and of the conport with unusual interest.

Milwaukce and Beloit Bailroad.

There ought to be no delay in raising the sum -\$150,000-asked for by the Milwaukee and Beloit R. R. Co., as an additional subscription to its stock. The sum necessary to complete the road to its intersection with the Racine & Mississippi R. R. and give our city an almost airline communication with the Mississippi at Savanah-opening to us an unlimited trade with the rich counties and towns in northern Illinois, and building up an immense lumber trade here at once-is about \$300,000. Of this additional stock required, the contractors, able and responsible men, offer to take \$150,000, and to contract to make the connection complete in November next, if by the 1st of May, the other \$150,000 is raised; and, as we said, there ought not to be a moracra's hesitation about it. Such an offerpremising to accomplish so much with so little means-does not often appear, and our citizens will be derelict in duty to themselves if they suffer the opportunity to pass by. The building of the road—the completion of the connection-i*;to be sure, a cortain thing; but the question is whether it shall done this year or next-whether the ordinary expenses, a heavy average on a short and isolated road, shall for still another year be borne by the 30 miles of road to East Troy, carning comparatively little,-or whether before next winter, the whole road shall be completed, and the connection made, ready for a profitable winter business, and everything be in order for pushing trade into Illinois next year on this important thoroughfare. This is the ques-

The people in the country towns have nobly responded to the call made upon them; let not the city hold back, but by a prompt subreciption of the stock, on the liberal terms proposed by the Company, come forward at once and secure Milwaukce County-Official.

We do not perceive my remarkable falling off in Republicanism in these figures.

THE NEW POSTMASTER, -Mr. J. R. SHARPSTEIN of the News, returned from his Washington pilgeimage restorday, with his commission in his pocket. It is said that he will take possession of the Post Office immediately, and introduce a new mes of Clerks. We hope they will be as faithful and accommodating as the present ones.

"ASTOUNDING" INDEED. -A correspondent of the News, writing from Montello, says that last fall Marquette County gave Fremout 1500 ma. jurity, whereas now the Democrats have elected quite a number of the local officers, and thence concludes that "the revolution in popular sentiment is astounding." The discovery is more "astounding" than the revolution. Marquette, on a light vote, has given Chief Justice WHITON very nearly, if not quite, as large a majority as it d d for FREMONT. Had a full vote been pelled the Republican rusjority would have been increased over that of last fall,

Neenah gave Whiton 240, to 7 for Cothren. Menashs, Whiton 171, Cothren 192.

Hortonia, Whiton 15 maj. Freedom, Cothren 29 maj.

re-election, has probably succeeded by 200 maiority. MICHIGAN ELECTION.—The Detroit Tribune the 11th inst., gives returns from 17 counties, showing a Republican majority, on the Judicial ticket, of 7.850. The remaining counties will add considerably to this mejority. Of the Su pervisors elect, thus far; the Republicans linve 125 and the Sham Democracy 51. WASHINGTON COUNTY-CIRCUIT COURT,-We learn that at the recent term of the Washington County Circuit Court, the De Bar lynchers were

arraigned for trial and discharged, on motion of PROPRIETORS, their counsel, by the Judge, upon the ground that they had been once before indicted and tried for the crime. Kock, the individual arrested, last summer, by Sheriff Conovan, for placing obstructions on the track of the La Crosse and Milwaukee R. R., was tried and convicted—the first conviction, we believe, yet obtained in our State for the offence charged. One Dr. McDonald, was also convicted of stealing a horse and buggy at West Bend. The sentences of these two criminals had not been pronouced, when our informant left West Bend. No doubt, however, they will both enjoy "free quarters" at Waupun,

Emigration Westward.

The Rochester Union of the 7th says that "the spring tide of emigration westward is large, and the trains over the Central Railroad sare unusually large in consequence. The express train from the East this morning was composed of fifteen passenger care, containing over five hundred paying passengers. It is said that this is the largest train ever seen on the read, unless upon some extra occasion, like a fair, convention, or when Kansas delegates were coving. These were ordinary passengers on business and not pleasure."

One day, week before last, the mency safe of the American Express Company was seized at the play, would then be directed to the mutual in-Suspension Bridge, by the vigilant Custom House officer. It was held by this officious personage any moral and intellectual training, who would for some time, and when opened it was found to contain half a million of money, and a pair of which would go to redeem two evenings of the old boots belonging to the messenger. The boots week, and would furnish food for the mind for were declared contraband, but the safe was al lowed to go on after a vexatious delay.

Gov. Geary was sent to Kansas as a National Domocrat, and every Bogus Democratic journal at the North applauded him, but now that he has resigned and told the truth about the outrages there, they all abuse him foriously.

RAHLROAD IRON SIEZED .- The Racine Adva cale says that the cargo of iron on board of the echooner Hibbard, which has just been got off rom the beach, has been seized by the Sheriff, on a claim of parties in Cleveland.

The Elmira Guzette states that the strike on the Canandaigua and Niagara Falls Road has and all the other crimes induced by idleness? been amicably adjusted by the payment of the full indebtedness of the Road to the workmen.

For the Dally Sentine Row to Applaud and Accisim the most Glorious Triumph in St. Louis.

MESSES. EDITORS :- In an article of the St. Louis Democrat, given in your paper of April 13th, the writer said among other things, in regard to the victory of the emancipationists, "It is a triumph, that in America demands the ap-

plause and acclaim of the whole people." Now, Mr. Editor, allow me to make a suggestion in what way this should be done. It has been ascertained that the adopted citizens of German birth helped to a great extent, or rather decided, the great victory of Liberty. Let us then give them a substantial proof of approbabation by a liberal contribution, made up by small subscriptions, to the support of the German Academy, founded there last winter on a grand scale, for the cultivation of science, art and industry. Mr. Muench, a distinguished Gorman writer and farmer in Missouri, who worked very zealously for the election of Fremont, gave a very favorable report in the Atlantis of February, about the progress of this institution, and con cludes with these words:-" If \$50,000 could be procured, the founding of a German Universiy were seenred in a city which, by its cituation, the strength and spirit of its German element, is very well adapted for such an undertaking." By this St. Louis, already the citadel of Liberty, would be strengthened, and be able the better to carry on the war of annihilation against the hosts of elays aristocracy.

Another Post Office Offices.-Another of the instances in which the Post Office Depart. ment assumes to punish the people for their po litical opinions, has recently come to light, in Walworth county. The Whitewater Register tells the story thus:

POST OFFICE CHARGE.—Lagrange Post Office, in this county, has been removed from its former location at Lagrange Center, to the cast part of the town, about a mile distant from the office, in the edge of Troy. The removal was made, we understand, in direct opposition to the wishes of the people of the tows, very few of whom are at all accommodated by the office in its present location. Many of them will have their mail matter sent to Palmyra, and make some their mail matter sent to Palmyra, and make some arrangement to get it two or three times a week. Our informant says that no reason can be assigned for the change, except the fact that at La grange Center no Democrat could be found to take the office of Postmaster.

necessary. The operation was performed by Dr. Gale. Janesville Guzette. The vote of this city, on Tuesday, in favor of the \$50,000 Railroad Loan was nearly 20 to 1; and almost unanimous against the tax. This vote secures the early completion of the Railroad to Greenbush .- Sheboygan Times.

For the Sentinel. A Rischanic's Literary Association

MESSES. EDITORS:-My attention has been or some time directed to the want of a Moehanic's Literary and Scientific Association in this city. I am aware that there is a "Young Men's Association" existing here, still I believe it differs materially from the above named. Our city is large, and our young men by no means too well educated or well informed to warrant a stand still in the "march of improvement." The object of such a society would be, first to afford an opportunity to all young men above a certain age for the improvement of their minds, by plaeing within their reach good standard Literary nd Scientific works. There would then be a field for mechanical talent in its every branch, including plans, models, paintings, drawings, patent designs, &c , &c., having exhibitions of all such and awarding prizes. As regards the Literary field, lectures would be given once or

twice a week, as the case might be; essays on various subjects would be written; debates would be held, speeches delivered, and the whole science of literature would be thus opened up to all its members from the one to the tenth talent. This is no visionary object -is can and ought to be. Who can limit the incalculable benefit such a society would be to the rising generation of Milwaukee? Talents now going to waste; nay worse, because directed towards unworthy objects, would then be led into a useful channel. Time, now worse than misspont, would then be redeemed. Ideas, now never called into provement of all. What young man is there, of not wish for-nay, sieze with avidity-any chance any moral and many store with avidity—any chance which would go to redeem two evenings of the work, and would furnish food for the mind for the remaining five. We must have something to live for—some noble end to obtain, and what more exatted than the improvement of the talmost exact than the improvement of the talmost exact than the improvement of the talmost are so often perverted. Do we not read of the exactions of Franklin, Webster, &c., made towards perfecting their education, or of the debating clubs, attended by the great Johnson, Revice Pitt, Fox. Sheridan, &c., stars of the last Burke, Pitt, Fox, Sheridan, &c., stars of the last century. Nor need he whose education has Free. century. Having lived all their lives in slavery to their grosser propensities, they cannot so easily leave their glass, which to them possesses greater attractions than "the feast of reason and flow of soul." All that is wanted-all that they want, is the chance-many of them, at least, would seize it. Give them opportunity to improve their talents, and the tone of morals among them becomes necessarily improved, for their self-respect is increased—they feel that they are doing something for themselves and the community. Mr. N. D. Bennett, who was one of the surveying party of the Wiscorsin and Lake Superior Railroad Company, furnishes us with the following interesting items, regarding the route over which they passed:

As we near the Oceate river, we find good farming land again, continuing, with the exceptions of a few groves of pine, birch, tamarack, and hard maple to within about eighteen miles of Pushadaco Brook, from which eighteen miles of Pashadaco Brook, from which point there is a short distance of sandy soil.—
Near the head of the Pashbeco River there is a species of prairie openings—oats, wheat and potatoes, could be produced there in abundance.
This soil continues for thirty or forty miles along the Brulay River. There is not the amount of timber upon the Counto that has been supposed—there is considerable upon the North and South branches of the Menomonee, but about a dozen Lumber Companies already located there, will soon use it up. It is about one hundred miles from Appleton to the Brulay, and the scenary is well provided with living streams of water, from some of which the boys caught any along the Brulay River. ERIX STREET.-The attention of the Third Ward Aldermen is carnottly invited to this street. In the business season, one of the greatest thoroughfares in the city, it is in a most abominable condition. For a con aderable portion of its length the sile-walks have been filled up far above the rendway (though the planks are not half [sid down]) while the street between is a cazal of mad, cat deep by wheels, so that drays, &c., go under to their axies in many places. Three or four propeller lines will land their cargons at the docks along this street this season, and there will be of course a large, amount of teaming to the warehouses. The work of improvement ought to be commenced at once, or the first dry weather. Booner or later, the whole street must be paved; but, at all events, it ought at once to be filled up to the grade, well gravelled, and drain to the river at every crossing.

A DISGRACE TO THE FOURTH WARD. -The condition of Reed street, in the Fourth Ward, from the Me-nomonce Bridge to the 5th ward is outrageous—is disgraceful---is positively shameful. Do the Aldermen of the Fourth Wardknow unything about it? If they don't ---let them farm'sh themselves with stiller, and try to wade brough it. And what it is now-it is and has been for Fears, in the spring and fail, and in all muddy times.— Some dispute as to the title to the adjoining lots, we be lieve, is the excuse for not doing anything; but the Fift Ward people offered long ago to annex the little strip of land, and keep it in order; but the 4th ward refused.— Messes, Taylor, Plansinion, and Johnston! will you do

"Live and learn" is a most u clot book, designed as guide to grammar, composition and pune usation. So two people speak or write really good grammar, and fewer still punduate decently, that a book informs them how to do so—and not only that indicates their faults, but shows them how they are to be corrected—cannot that to be peoplar; there is not a person, indeed, who might not learn something from it. THE MEDICAL TRINITY.

BY A O'H of Radway's Three Remedies possess specified old curative powers over certain diseases; and when either the Racy Rollef, Rene vating Resolvest, or the Regulators, are used for the certain class of diseases they are quecistly designed for, the system undergoes a rapid transformation from its diseased condition to a healthy and huppy state of existence.

RADWAY'S READY RELIEF.

This remedy is to be used exterinity, or taken internally, for all pains, aches and infurnities. In a few minutes it stops the most torturing pans, subdues all inflammations and cures the worst cases of Educations. Lumbage, Gout. Paradyels, Neuralga, Thorhandes, Eurns, Sprains, Strains, &c. It restores the lame, infrant and extremely on coundness and tigor. It is thewhere evitain care and preventive for Fever and Agus, Scarlet Farry, Smallpow, Group Hoursmiess, Cade and Engineerins. Whenever you seel any unpleasant or painful symptoms, take a dore of Rudway's Ready Relief, or apply it to the parts where the pain is located; in a short imay you will enjoy case and counfort.

Rear in mind, there is no pain so severe but that Radway's neady notice will stop, and no system so crippled with infurnities but that the R. R. R. Remedies will restore to sound and vigorous lically.

The discovery of these wonderful pills establishes a new ern in purgatives, and a new principle in the solence of medicine. In taking these pills no griping pains or allowed the infurince those who take them a good appetite and a locality digestion.

Each pill that is taken gives new life to the blood; they privity it, take from it all impure deposite and equalise its circulation.

One or two cosses of Radway's Regulators will entire

n nify it, take from it an impact say the chronition.

One or two coses of Radway's Regulators will entireremove all districtant symptoms of Dysjichsia, Jaundice,
Nervousness, Indignation, Contiveness, Liver Complaint,
Silliounness, Mclancholy, and will cure all organic discases, either in man or woman. Laddes troubled with irregularities or weekening discharges, may rely upon a
prompt cure and regular portods if Radway's Regulators
are taken.

are taken.

PICTURE OF REALTH AND BEAUTY.

A few does of Radw.y's Regulators will insure a clear, fair, pure and health skin and a rosy complexion. They give to those troubled with weak duil, y-llow eyes, a slear and brilliant appearance. Radway's pills give a natural brilliant appearance. Radway's pills give a natural to the ince, syes and head; and the use of the foesty Relief as a wash for the teeth and an aromatic for the breath, will change the most dispasting foul breath to sweetness, and the bisckest teeth to Parian whiteness.

One to tee of Radway's Regulators is a done; they never do lojury, but siweys do good. PROJECTIVE DISEASES, APOPLEXY, TERMINATION OF

One to ten of Anaway a to good.

Corgistive distance, Aporlexy, Termination of or do logicy, but sincy a to good.

Corgistive distance, Aporlexy, Termination of Blood to His head.

Persons of full blooded plethorte libits are more subject to conjective distance, headches, such of blood to the head, than those of a lean habit; blending in these cases is highly detrimented, nor does this practice leave the danger; the difficulty is not caused by too much blood, but by its disturbed circulation, and the bregater action of the head. Now a dose of Radway's Regulators will correct all these difficulties—they will correct the action of the heart, liver, and all other organs to a natural and regular action, and will immediately equalise the birestailed of the blood. Mere purging in these cases will only aggravate the disease.

Radway's Regulators not only "agulate the bowels, by which all diseased and injurious matter is purged from the body, but they control the whole system, and, force, each and every organ, the heart, brinn, liver, nerves, howels, skin, pancreas, bindder, kidney, a stomach, lung-though, and and every organ, the heart, brinn, liver, nerves, howels, skin, pancreas, bindder, kidney, a stomach, lung-though and every organ, the heart, brinn, liver, nerves, howels, skin, pancreas, bindder, kidney, a stomach, lung-though and every organ, the heart, brinn, liver, nerves, howels, skin, pancreas, bindder, kidney, a formach, in the heart, brinn liver, nerves, howels, skin, pancreas, bindder, kidney, a formach, live common pills, but they search out diseased humars and eposits from the hoty. In a few hours after taking a dose of these life creating pills you feel orkershed and integrated from the hoty.
